## PROFESSIONAL SUMMARY

Cybersecurity Analyst and Computer Science graduate with a strong foundation in cybersecurity operations, network security, incident response, vulnerability assessment, and cloud computing. Skilled in security monitoring, technical troubleshooting, threat analysis, Python, and SQL. Experienced in supporting IT operations and maintaining system reliability. Passionate about protecting digital assets, improving security posture, and contributing to secure technology environments.

## CORE COMPETENCIES

Security Monitoring • Incident Response • Vulnerability Assessment • Threat Analysis • Network Security • Access Control • Risk Analysis • Cloud Computing • IT Support • Troubleshooting • Security Awareness • Encryption Fundamentals

## PROFESSIONAL EXPERIENCE

### Ministry of Transport and Logistics Services – IT Department | 2025

- Supported daily IT operations by troubleshooting technical issues and maintaining system functionality.
- Assisted in monitoring security systems to support service continuity and operational stability.
- Contributed to reducing incident response time through proactive monitoring and issue handling.
- Collaborated with technical teams while adhering to organizational IT policies and procedures.
- Assisted in maintaining reliable and secure IT services across the department.

## PROJECTS

**Password Strength Testing System (Python) | 2026** – Developed a tool to evaluate password strength and encryption effectiveness, supporting cybersecurity awareness initiatives.

**OHJR Escape Room Cybersecurity Game | 2024–2025** – Contributed to an interactive cybersecurity learning environment utilizing digital security challenges and Caesar Cipher concepts.

**GGJ Game Competition Project | 2025** – Participated in the design and development of a game project that achieved second place in a competitive event.

**Secure Hospital Database (SQL) | 2023** – Designed and implemented a secure database structure while applying data protection and privacy principles.

## EDUCATION

Bachelor of Computer Science, King Khalid University, Saudi Arabia (2025)

## CERTIFICATIONS

- Certified Cybersecurity Analyst – IBM & ISC2
- Network Security and Incident Response Certification
- Access Control Principles Certification
- Cloud Computing Fundamentals Certification

## TECHNICAL SKILLS

**Cybersecurity:** Security Monitoring, Incident Response, Vulnerability Assessment, Threat Analysis, Network Security, Access Control, Encryption Fundamentals

**Tools & Platforms:** Firewalls, IDS/IPS, VPN, AWS, Azure

**Programming:** Python, SQL, Java, HTML, CSS

**Soft Skills:** Communication, Problem Solving, Analytical Thinking, Time Management, Teamwork, Continuous Learning

## LANGUAGES

Arabic (Native) | English (Professional Working Proficiency)
